

THINKING, PERCEPTION, AND MEMORY IN YOUNGER AND OLDER ADULTS

In this research study, you will be asked to perform several tasks involving thinking, perception, and memory.

The study will take about 90 minutes and you will be paid
\$10 PER HOUR.

Eligible participants may be invited to 2 further sessions of about 90 minutes each.

Who we are looking for:

- you are between 18-30 or 60-80 years of age
- have normal or corrected-to-normal vision
- learned English as a child (before 6 years of age)
- completed elementary school at least up to Grade 5

If you are interested in participating, please contact:

Dr. Alaitz Aizpurua

E-mail: aizpu006@umn.edu

Telephone: 612-626-2174 (Cognitive Neuroscience Lab)

The study is conducted with Dr. Wilma Koutstaal, Associate Professor, Department of Psychology, University of Minnesota.
